

**ROUTINE DECK MAINTENANCE ASSIGNMENT 3  
POLLUTION CONTROL**

**NAME:** \_\_\_\_\_

*This assignment checks your progress understanding of the content of the Maintenance Lessons and Workbook.*

*Perform routine remedial, preventative and survey deck maint. on a vess. < 80 metres*

*Perform routine maintenance on a vessel up to 24 metres*

**Question 1.** As a master, write a short essay to describe your management plan for the preparation, and implementation for a 24 mtr. steel vessel’s routine out of water repaint and year 4 survey. Itemise the work schedule as will be required.

Your plan must be structured to clearly show that for each maintenance item you:

- a. Identified the hazards
- b. Assessed the risks posed by the hazards (likelihood + consequence)
- c. Implemented control measures for those risks
- d. Devised a re-evaluation process of your plan

Using a table format that includes the detail as below would be acceptable.

<b>Maintenance Job Plan</b>				
<b>Name the survey task</b>	<b>Hazards Identified</b>	<b>Risks Assessed</b>	<b>Control plan</b>	<b>Re-evaluation</b>
Survey Item 1	List job hazards	Define type & priority	Develop checklists etc	Format documentation
Survey Item 2				
Survey Item 3				
<b>Overall Worksite Safety</b>				
Safety induction				
Access provision				
Environmental				

Also demonstrate compliance with the relevant occupational health regulations and codes of safe practices relating to overall safe access, the use of manufacturer's Materials Data Sheets when using paints, chemicals and cleaning materials and the provision of appropriate safety/emergency equipment. Include your procedures for safe disposal of debris and waste.
