

STOWAGE ASSIGNMENT ANSWER ONE:

YOUR SAFE STOWAGE PLAN FOR THIS VESSEL TO CROSS A RIVER BAR SHOULD INCLUDE:

**Stow all gear below and secure. (ropes, fenders, fishing gear, anchor)
Stow all catch using shifting boards if necessary.**

**Check fuel levels and top up to reduce free surface effect.
Top up or empty fish wells & large live bait tanks.**

Lash or sheet down any swinging booms.

**Secure all hatches and skylights.
Close weathertight doors and windows (cabin).
Close all watertight doors required to be kept shut at sea (engine room).
Close and secure deadlights on port holes.**

**Ensure steerage will not be jammed by shifting gear.
Ensure freeing ports are clear.**
